

## Where to Go? - Chicago, IL

Sunday, 03 August 2008

Last Updated Saturday, 18 October 2008

Chicago is a major metropolitan hub and offers several prestigious teaching hospitals offering some of the most advanced conventional treatment options available anywhere. This 21- page report focuses on some of the smaller, independent practices offering innovative approaches to cancer, including the Block medical center, run by Keith Block, MD. The report also discusses the integrative approach used by the Chicago facility of Cancer Treatment Centers of America. For more information or to order this report, please [click here](#) .
