"Ralph Moss, Ph.D...has been a pivotal figure in this country for promoting change and dialogue. He is sincere, dedicated, reasonable, and flexible."

--Harold P. Freeman, MD

Chairman Emeritus of the President's Cancer Panel; Past National President of the American Cancer Society; Associate Director of the National Cancer Institute (NCI); Director of Surgery at North General Hospital and Medical Director of The Ralph Lauren Center for Cancer Care and Prevention in New York City

"Ralph Moss has contributed extensively to literature that deals with alternative approaches for the treatment of cancer. His professional colleagues, both in mainstream medicine as well as complementary medicine, regard him as one of the foremost authorities in this field. His work is widely published and I have drawn upon it to evaluate the more controversial aspects of cancer treatment. Moss has also provided valuable leadership in the ongoing search for more holistic treatments for cancer. All his colleagues, including me, hold him in high professional regard."

--Deepak Chopra, MD

"Ralph Moss has illuminated the way for many people who would otherwise have continued to experience darkness, helplessness, and despair."

--Mary Kerney Levenstein, PhD

"Ralph Moss is probably the most knowledgeable writer in the world on alternative therapies for cancer."

--Julian Whitaker, MD

"Ralph Moss is a standout authority on the full range of treatments for the known cancers."

--Congressman Peter DeFazio (D-OR)

"I consider the work of Ralph Moss to be scientifically well-documented and reliable. I hold him and his work in the greatest respect."

--John W. Gofman, MD, PhD

Professor Emeritus of Molecular and Cell Biology in the University of California at Berkeley, and Lecturer at the Department of Medicine, University of California School of Medicine at San Francisco, co-discoverer of uranium-232 and uranium-233, etc.

"Ralph Moss has long been known as one of the most informed writers on alternative medicine cancer issues in the world. His passionate dedication to the importance of finding the least expensive, least toxic, and most effective treatments for cancer is greatly appreciated."

--Congressman Dan Burton (R-IN)

"Ralph Moss is one of the key figures in the nation in the area of complementary and alternative medicine."

--William R. Fair, MD
formerly Chair of Urologic Oncology at
Memorial Sloan-Kettering Cancer Center

"When I want a clear-eyed look at what's happening in alternative medicine, I give Ralph Moss a call."

--James Gordon, MD

Founder and Director of the Center for Mind-Body Medicine, Clinical Professor, Georgetown University School of Medicine, and Chairman of the White House Commission on Complementary and Alternative Medicine Policy

Consult the Expert:

What is the fastest and most reliable way to get the potentially life-saving information you need about various treatments, conventional, complementary and alternative? Many people go through a time-consuming and expensive process of trial and error, based on dubious and profit-oriented advice. That's why I created The Moss Reports. I would like patients to start with the benefit of my decades of research into the most effective treatments, not wasting precious time and resources trying to figure out what those treatments might be.

Nobody can be an instant expert in anything, least of all something as complex as cancer treatment. Do you recall the expression that writer Alexander Pope coined: "A little learning is a dangerous thing"? This is certainly true for cancer patients. In a crisis, it is all too easy to obtain superficial knowledge of a treatment, become convinced of its value, and then pursue it with an almost religious fervor. It is only later that patients realize that they hadn't looked more deeply into their various choices. I do everything I can to educate patients about their most solid alternative options.

--Why not take charge of your situation with the power that knowledge brings?

--Why not get expert advice rather than trying to be an instant expert yourself?

--Why not save hundreds, if not thousands, of dollars that would be wasted chasing the wrong treatments?

--Why not give yourself every advantage in beating cancer?
